WORK EXPERIENCE

TRAINEE DEVELOPER

Random Development, an Argentine company that provides software services across various industries
July 2022 to November 2022
(3 months)

- I worked helping in the elaboration of the wiki of a project that tried to facilitate the use of pre-designed css styles.

SUMMARY

I am a web developer in training process.

I have been learning different skills for 1 year, always focusing on my lines to become a frontend developer.

I like to learn new things and I am very proud to say that solving problems with code gives me satisfaction.
